

# Endoscopy Grand Round on Air

Tue 16th June

Endoscopy Grand Round on Air is a web based live endoscopy event that will feature interactive case based discussion, guided by a panel of experts. Our aims include:

- **Demonstration of endoscopic skills**
- **Demonstration of endoscopic technology**
- **Decision making process**
- **Expert discussion and review of literature**

The event will aim to address both basic and advanced aspects of each procedure, audience participation will be actively encouraged through the use of the chat function and live polling.
